

A logo for RD50

Michael Moll

- Please take an unbiased look at the logos
- Take into account that these are partly draft proposal which might need fine tuning or a touch from a professional designer
- In case several Logos are grouped by one number, please point out which ones you like most. We will re-iterate to find the best out of the group at a later stage.
- Every institute can propose 3 Logos (in order of priority) in the first round of vote. In a second and final round the number of logos will be reduced to 3 or 4 logos (in case votes for 3rd and 4th are very close).
- Please ask your RD50 team leader to send the votes to Michael.moll@cern.ch until 28.June
- I very much welcome comments in any form that I will treat confidential.
